

SCHOOL EXPANSION: FOREST HALL SCHOOL

Introduction

Essex County Council and its team are pleased to present proposals for the new facilities and renovations/remodelling works at the school.

These drawings being shared to inform the local residents about the emerging proposals to give the opportunity to provide feedback.

Ingleton Wood (Architects) are working with Beardwell Construction (Design and Building Contractors) to design and deliver the new school facilities.

The proposed works aim to provide suitable accommodation for an additional 90 pupil permanent places.

The works include:

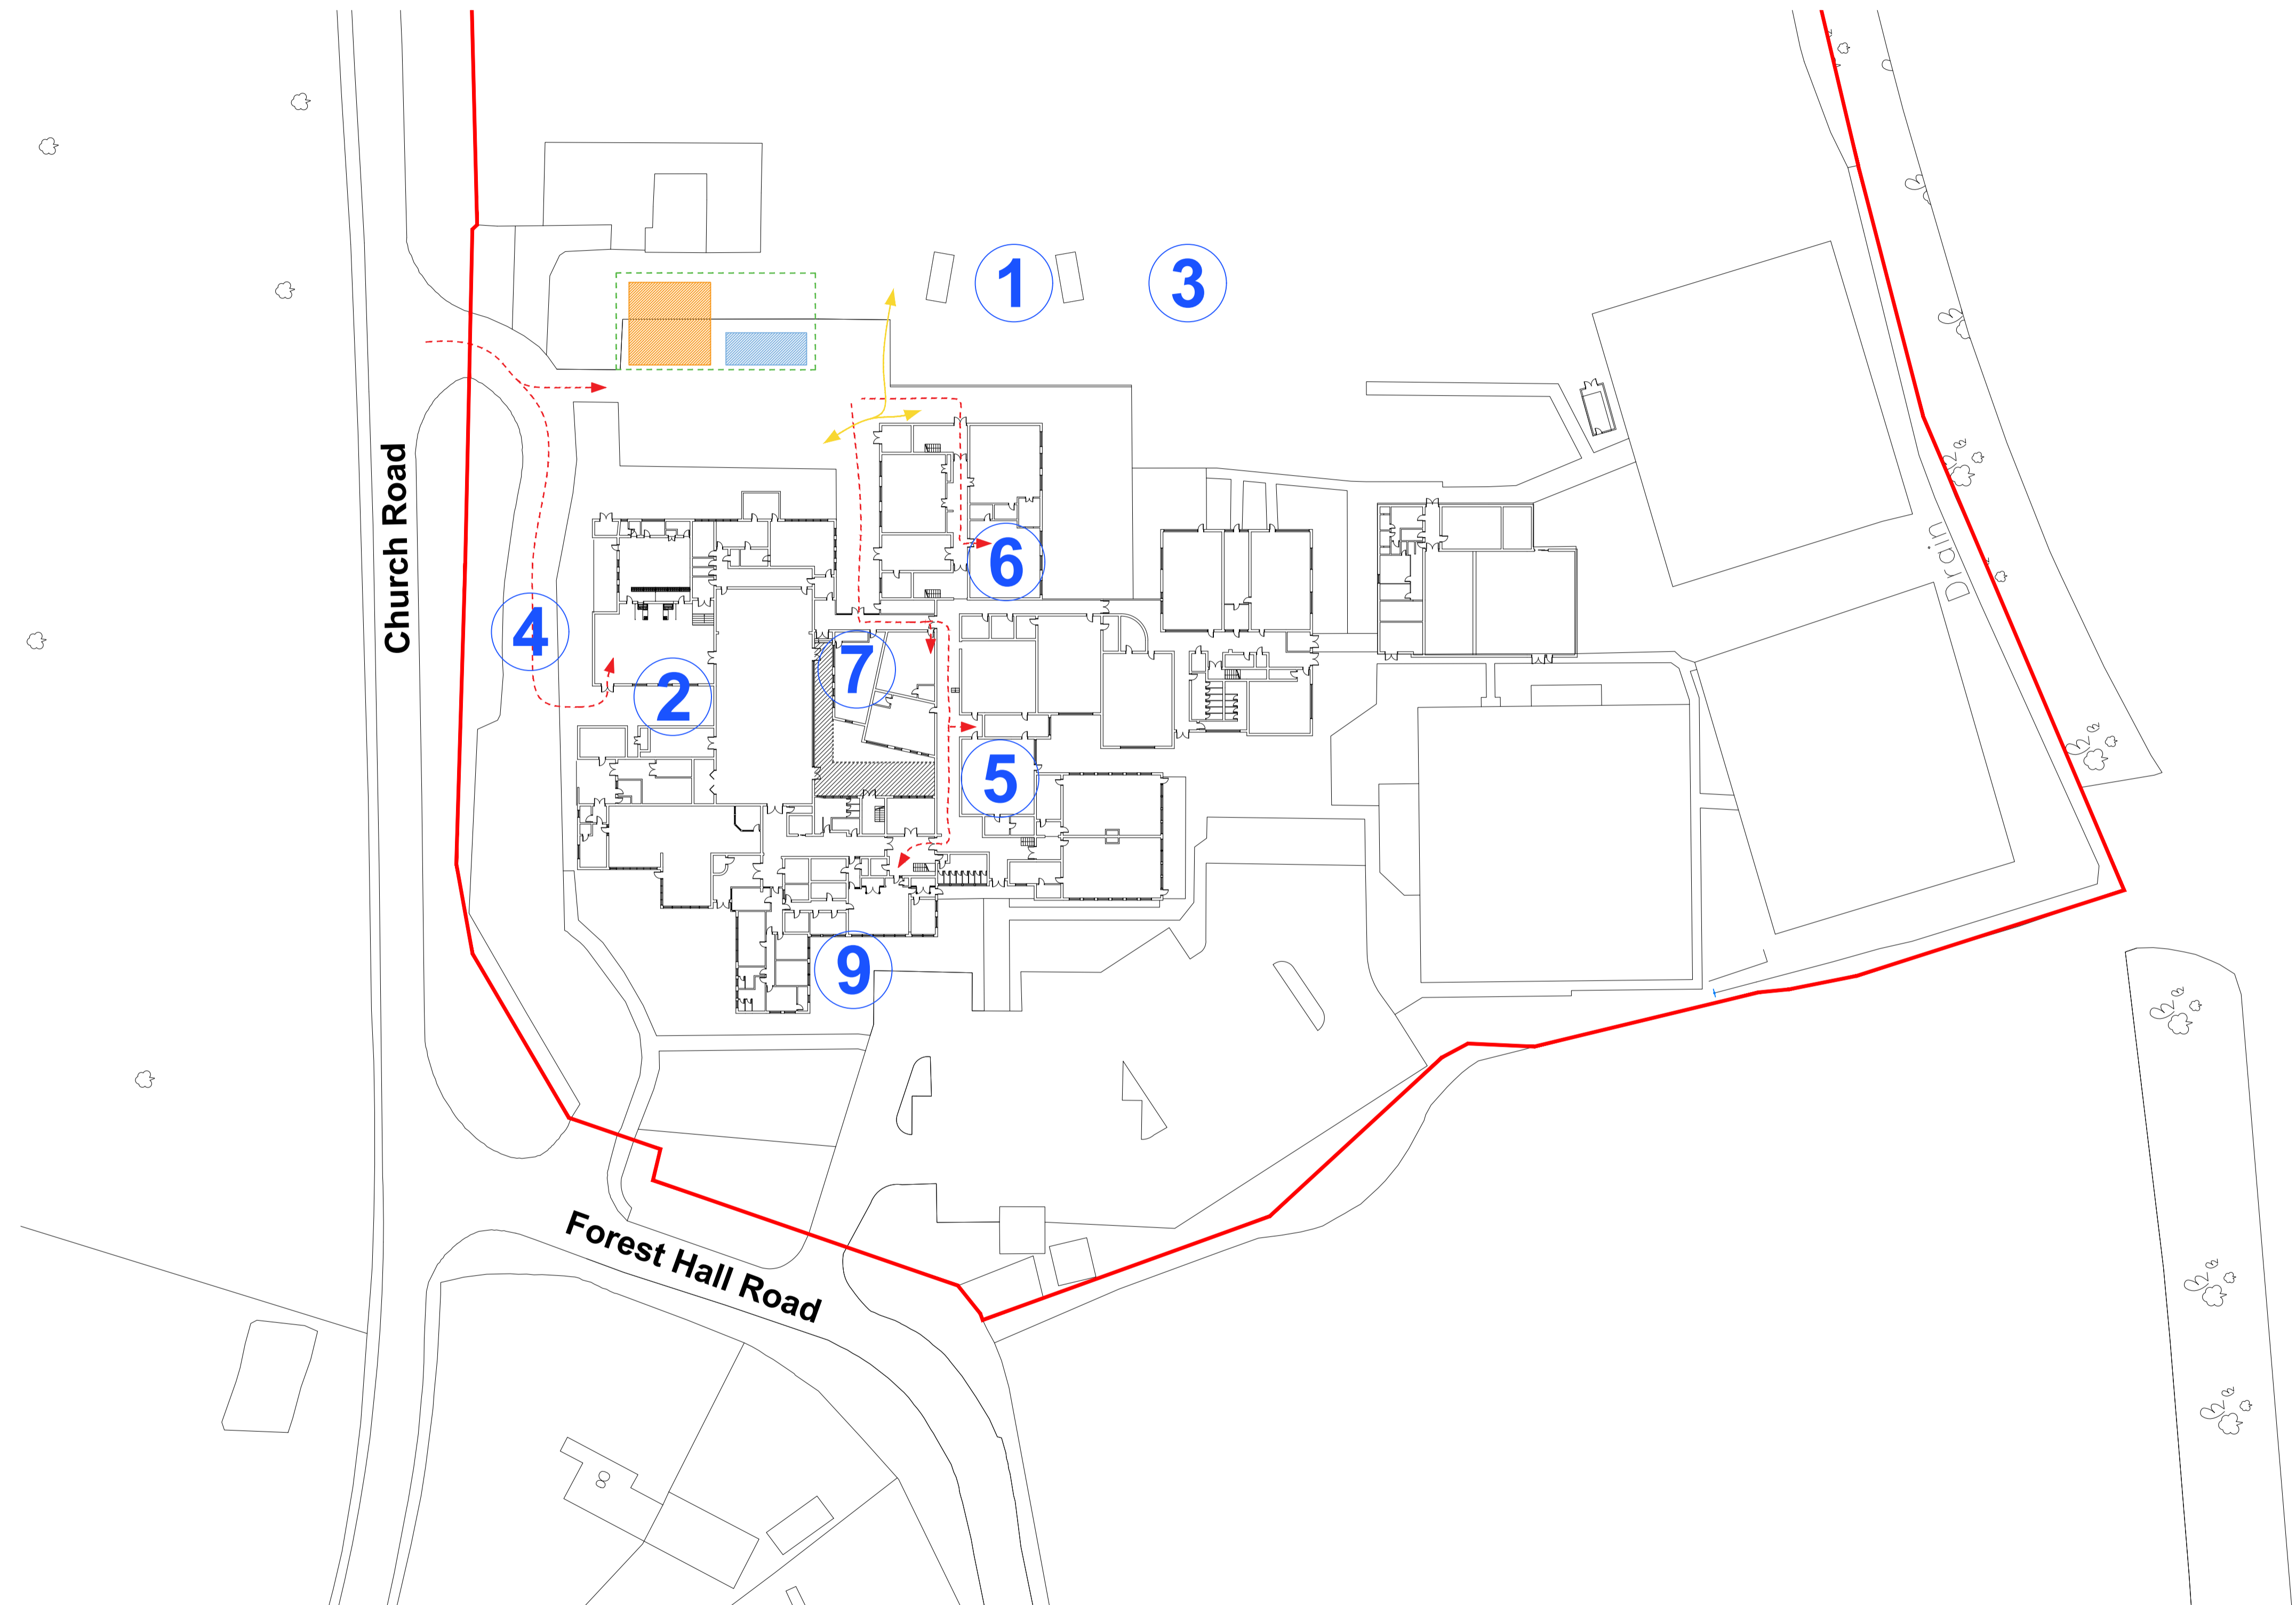

New Build

1. New build pupil changing facilities, WCs and plant room.
2. Dining hall extension.
3. New porous macadam Multi-User Games Area (MUGA).
4. Car parking.

The new changing rooms have been sited near the existing playgrounds at the eastern side of the school benefiting all sporting activities. Construction traffic access will be managed externally without affecting school operations.

Remodelling Works

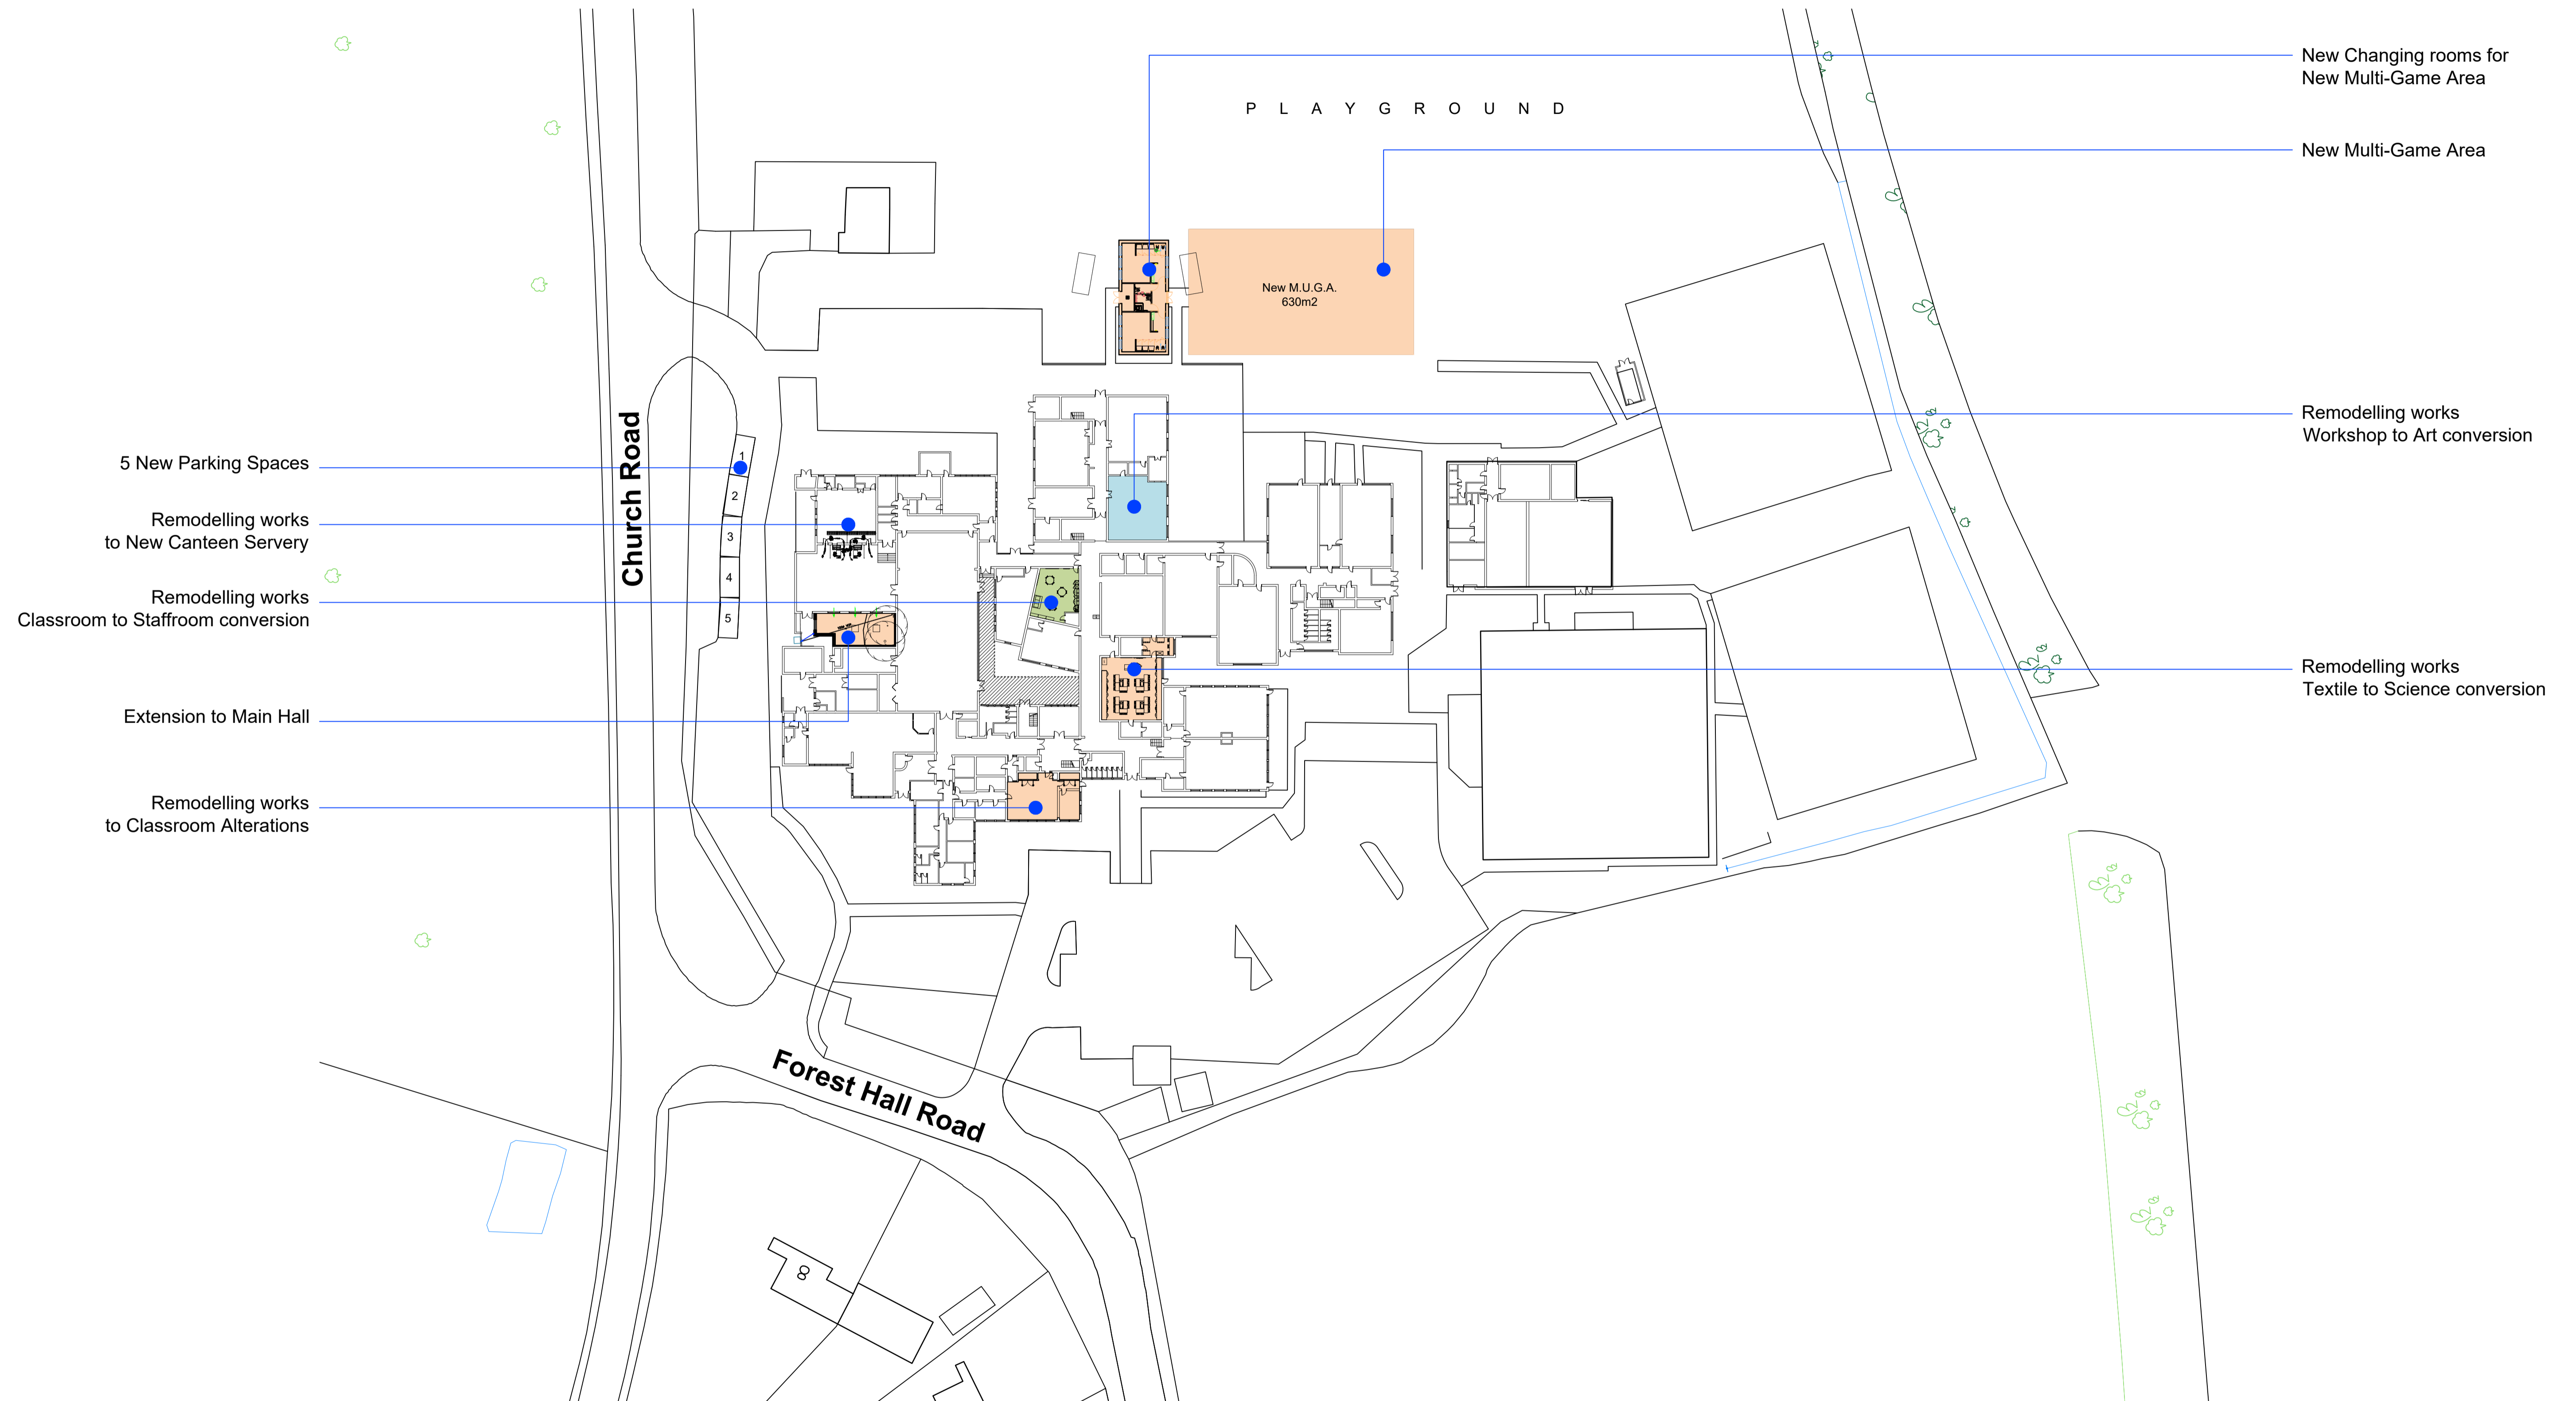

5. Conversion of ICT & Textile room into Science Laboratory.
6. Conversion of Resistant Materials Room into a General Art Room.
7. Conversion of General Classroom into a new Staff Room.
8. Conversion of Office into small Group Room.
9. Expansion of undersized General Classroom.
