

## **DigiGo**

### **Consultation options**

#### **Option 1: Change to evening hours of service based on travel demand**

The DigiGo service currently finishes at 10pm, 7 days a week. Passenger use and travel behaviours highlight certain days where the 9pm until 10pm period is underused, on average, by 35% compared to the overall service.

There is also an opportunity to increase patronage by operating later on certain days of the week.

It is therefore proposed to amend the service finish time as follows:

- Sunday, Monday, Tuesday, Wednesday – 9pm
- Thursday, Friday, Saturday – 11pm
